

YUSUF DEMİR SCIENCE AND ART CENTER

KIRŞEHİR/ TURKIYE

- Yusuf Demir Science and Art Center is in Kırşehir.
- Kırşehir is a city situated in the center of Türkiye in Cappadocia Region.

YUSUF DEMİR SAC

- Yusuf Demir Science and Art Center is a special education institution, related to the Ministry of National Education.
- It has the purpose of making the gifted and talented students aware of their individual abilities.
- Our institution provides education to students between the ages of 8 and 18.

YUSUF DEMİR SAC

- We have 446 students and 36 teachers in total.
- Our institution aims at training and educating talented students by using various activities, games and Project-based Learning in which students gain knowledge and skills.

- Our students are gifted and also talented in Maths, Science, Art and Music.
- We have also English Class, workshops of robotic and software, Ceramic , Drama, Space, mind games,, and origami.
- Students can develop their abilities according to their interests.

- Between the years 2013-2015 we carried out a Comenius Regio Project “Storytelling Skills and Creativity”.
- We took part in the “Be Friendly to the Environment” European Union Comenius school partnerships project between 2013-2015.
- We were a partner in the project titled "Teaching Maths Through Games Using Multiple Intelligences" (Erasmus + KA2 Teaching Maths Through Multiple Intelligences).
- It was among the 30 projects that remained for field examination within the scope of European Language Award in 2010.
